

Would you like a warmer home?

You may be losing up to 2/3 of the heat in your house through your walls or roof increasing your fuel bills.

Aren't they high enough? Why not reduce your bills instead?

Harborough District Council is working with Harborough Energy on the Warmer Homes Project to help residents take advantage of **FREE** cavity and/or loft insulation.

How can I find out more about these grants?

Get in touch with Harborough Energy and we will talk you through the process, ask you some straightforward questions about your home to make sure it is suitable, then, if you wish to go ahead will help organise the whole thing and ensure the work is done to a satisfactory standard.

To find out if your home is eligible, call **01604 740 950** or **07792 511 275** or email: **energygrants@harboroughenergy.co.uk**

Do you have any other questions?

If you have any questions about the project, you can call Harborough District Council on **01858 828 282** and our call handlers will either answer your questions directly or forward them to a council officer.
